

MISSOURI POWER BELT

**PROJECT READY.
POWERED FOR GROWTH.**

YOU FOUND US AT THE RIGHT TIME

Missouri Power Belt is a regional alliance of three electric cooperatives powering the I-70 corridor between Kansas City and St. Louis. Our electric-ready development sites, strategic location, and accessible electric infrastructure make the Power Belt an energy and utility destination, designed to serve your company's expansion in the center of the United States.

MID-MISSOURI'S ENERGY ADVANTAGE

- Uncompromising Reliability.
- Proven Capacity at Scale.
- Rate Stability You Can Budget Around.
